Estimated Cost
Quarterly Ground-Water Monitoring
Alaska Marine Lines
7100 Second Avenue SW
Seattle, Washington

Dear Mr. Strong:

As you requested, we have estimated the cost to perform the recommendations provided by Dames & Moore in a recent report prepared for Alaska Marine Lines (Dames & Moore, 1991, *Soil and Ground-Water Assessment, 7100 Second Avenue SW, Seattle, Washington*). The recommended work included quarterly ground-water monitoring, a limited risk assessment, aquifer testing, and a final report. The estimated cost for this work is approximately \$32,000. Table 1 provides a more detailed explanation of the estimated cost.

If you have any questions concerning this work or its estimated cost, please do not hesitate to call.

Sincerely,

DAMES & MOORE
